Canada's National Fair

"The great worth of an exhibition, so comprehensive in its scope as the present one, is its educational value."

THESE ARE THE WORDS of His Gracious Majesty King Edward VII. spoken when, as Prince of Wales, he opened the Colonial Exposition in London. True and apt as they were of that institution, they are equally as true and equally as apt of the great AGRICULTURAL EXPOSITION and INDUSTRIAL FAIR that will be held in Toronto, Ont., from

**Monday, Sept. 1st (Labor Day), to
Saturday, Sept. 13th, 1902**

THIS WILL BE the 24th annual exhibition held under the auspices of the Industrial Exhibition Association, which is composed of prominent business and professional men of the city who patriotically give up much time to the management of this undoubtedly the greatest Annual Fair held on this continent and in many respects the most unique.

THERE IS NO institution in the entire world that gives so much for so little. In fact, there are many features that cannot be seen singly elsewhere for the price of admission charged for all in Toronto with the greatest variety of exhibits any short-time fair can boast thrown in.

IN THE BUILDINGS will be found many wonders of invention and a thoroughly representative display of the arts and industry of a country that in extent is

Second to None on Any One Continent

and that in resources, developed or undeveloped, is unsurpassed and unsurpassable. It is only at

Toronto Fair that this fact can be properly realized, for there alone can be seen the products of every province, every district and every region of the country. There are to be found completed manufactures from every centre of industry; minerals from the Klondike, British Columbia, Nova Scotia and New Ontario; forest specimens from many districts, and samples of grain, of vegetables, of fruit, of flowers, in short, of the entire husbandry of the whole country.

IN THE GROUNDS there are attractions in great number, but the grandest of these is the

Marvellous Display of Live Stock

AT NO OTHER exhibition on earth can there be seen at one and the same time upwards of seven thousand specimens in life of the animal kingdom. The display of live stock at Toronto Fair is famous the world over, many an unbiassed expert having declared that even the celebrated Royal Agricultural Show of England cannot surpass it in several classes of the animals shown, while at Toronto, and nowhere else, can be seen gathered in

The one enclosure at the one time

900 horses of various breeds,
700 head of superb cattle,
1200 sheep and swine,
600 dogs, many of great value,
4000 fancy poultry and domestic pets.

To SEE ALL these things but 25c. is charged, while for 25c. more can be viewed afternoon and evening from a monster grand stand and enclosure capable of

Accommodating 20,000 people

besides horse-racing and other contests, the most magnificent spectacle ever produced out of doors, according to the world-famed Bolossi Kiralfy, the grandest display of fireworks ever made by the celebrated James Pain & Son, of the Crystal Palace, England, and Coney Island, New York, Lockhart's wonderful elephants, Captain Woodward's marvelously educated seals, Hardy Downing's thrilling loop-the-loop act on a bicycle, and a score of other interesting and amusing acts, all of which are briefly set forth within the pages of this little book.

A Word to the Wise

COME NOT ONLY one day, but two days, and three if you can, for not even then will you have exhausted all the wonders and entertaining features of the greatest of annual fairs. Come also, if you can, the first week, for then the crowds, while large, are hardly so crushingly in evidence as in the second week. In the first week the attractions are the same as in the second, excepting only the dogs, while the entertaining features are exactly the same. Refreshments can be obtained on the grounds at the same prices as down town, while the railway rates from all points are the same from the first day to the last of the Fair, three excursions also being run on each of the main systems in each week.

LOCKHART'S ELEPHANTS

CONSULT YOUR local railway agent as to fares. Always bear in mind that at Toronto Exhibition

Every Day is a Great Day

from the first (Monday, Sept. 1st), when the EARL OF DUNDONALD will preside at the opening ceremonies, until the evening of Friday, Sept. 12th, when the gates will be closed to visitors.

THE EXPOSITION

*To be opened by the Hon. The Earl of Dundonald,
Major-General and Commander of the
Militia of Canada*

Monday, September 1st (Labor Day)

In consequence of the formal opening taking place on Monday, instead of as usual on Tuesday, exhibits will all be in place on the Saturday previous, so that when the gallant general, the Earl of Dundonald, who was the first to enter Ladysmith, South Africa, after its 118 days' siege by the Boers, touches the button and sets the machinery in motion, everything will be in working order and the Exhibition

Ready to Receive Visitors

NEW BUILDINGS

NEW EXHIBITS

NEW ATTRACTIONS

Many improvements compared with past years will be found to have been made on the grounds. Several structures have been removed and others extended, while a handsome new Art Gallery and a capacious, well-arranged Dairy Building have been erected. In

The New Art Gallery

will be found arrayed the choicest works of Canada's brilliant coterie of artists as well as a large and extensive loan collection. In appreciation of the new building and the excellent light and arrangements afforded, the display of Works of Art will be thoroughly representative and the best ever made in Canada. A magnificent exhibit of photographs, to which both amateurs and professionals are invited to contribute, will be one of the features of the Art Gallery.

The New Dairy Building

It is, however, upon the New Dairy Building that the attention of the vast agricultural communities of two countries will be centered, for it is the proud boast of Toronto Exhibition that it attracts people from the United States as well as from the rural

districts of Canada. This will be understood and appreciated when it is stated that

Upwards of 300,000 People

attend annually, and that excursions are run on every railway and steamboat line that has connections with Toronto from the south, west, east or north. The Dairy Building is 192 feet in length and 80 feet wide. It contains large refrigerating plants for cold storage and is thoroughly equipped for demonstrations in butter and cheese-making, which will take place twice daily in a large hall in the center of the building, provided with seating capacity for 600 people in amphitheatre form. There are butter and cheese rooms, and conveniences for an extensive exhibit of utensils and appliances used in the dairy. In short, farmers will here have an opportunity of seeing all that is latest in the art of butter and cheese-making, and of being instructed in the advancement that is being constantly made in those industries. Lectures will be delivered by the most eminent professors in the country, who will also conduct the daily demonstrations. The cheese exhibit will be open all the time of the Fair. The butter-making will start on Tuesday, September 2nd, and continue until Thursday, September 11th. Over \$200 will be awarded in prizes for the butter-making competitions, while the prizes in the rest of the Dairy Department aggregate close upon \$1,000.

Field, Farm and Factory

Turning to other industries and exhibits, every building on the grounds will be found full to the limit of manufactured articles and of the product of field, farm and factory. There will be not a few exhibits from other countries than Canada, notably a large and varied collection of the PRODUCTS OF THE WEST INDIES, which will cover a space of more than four hundred feet. Processes of manufacture in various lines will also be on view. In short, in its industrial features the Exhibition of 1902 will prove remarkably comprehensive of the arts of peace, of the labor of the husbandman, and of the products of the loom, the workshop, the mine and the soil.

As to the Live Stock

Toronto Fair is known the world over for making the greatest display of all kinds of live stock, and

this year will be no exception to the rule. The dates were put back a few days in order to suit the convenience of farmers and breeders, and the number of entries shows that the course pursued has been appreciated, for the catalogue will be found the fullest yet issued. The Maritime Provinces will be represented as well as British Columbia, Manitoba, the Northwest Territories, Ontario, Quebec, and several States of the Union.

A Magnificent Dog Show

The Bench Show this year will as usual comprise hundreds of the best bred dogs the world can produce. In fox terriers and the sporting breeds the exhibit will be especially strong. The most eminent judges known have consented to make the awards, including the world-famed Mr. George Raper, of Gomersal, Leeds, Eng., Mr. Chas. W. Rodman, Jr., of Queen's, Long Island, and Mr. Parker Thomas, of Belleville.

Of Horses

There will be the customary glorious exhibit, numbering eight or nine hundred of all breeds and classes, from the lordly thoroughbred and the massive Clydesdale to the stately and dignified shaggy-maned Shetland. To see the different species of horse to perfection there is probably no place superior to Toronto Exhibition.

And then the Poultry

No fewer than four thousand turkeys, geese, ducks, fowl of every description, and domestic pets of all kinds will be on view in the poultry house, making undoubtedly the most superb exhibit of the feathered kingdom that can be seen in all the world.

In Music

ng
nd

the Exhibition will be very rich. Not alone will the show of instruments be noteworthy, including pianos, organs, harps, violins, trumpets, bugles, drums, cornets, cymbals, etc., etc., but several famous artists have been engaged who all day long will play choice selections, both classic and popular.

The Carriage Building

will be replete to overflowing with an array of vehicles that visitors from abroad acknowledge is unequalled and unsurpassable.

Of Machinery and Implements

Toronto Exhibition this year will make a wonderful showing, all the leading makers and dealers in the country having entered of their best and latest in invention and improvement, while for the first time several of the largest firms in the United States, recognizing the value of Canada as a market, have made entries.

The Main Building

will be handsomely decorated and will be full from floor to roof of articles of manufacture, of ladies' work, of artistically designed furniture, of the latest inventions and discoveries, and of all that's interesting in the world of industry gathered in every corner of the earth, but, of course, especially in Canada. Bands will play constantly both in front of the building and in the interior. It should be mentioned that the ladies in their department promise great things this year.

Horticulture and Floriculture

The buildings devoted to these branches of the world of product will contain the choicest and rarest in fruit and flower, including some orchids of world renown. For cereals and for vegetables Canada has an unexcelled reputation, and this year the exhibit bids fair to outstrip all that has been known.

Cultivation of the Sugar Beet

This industry will again receive attention, lectures being given by a professor from the Ontario Agricultural College who will have a lot prepared in front of Machinery Hall showing the beet in various stages of growth.

New Ontario, that richly endowed district of our own province, will be represented by an exhibit that not only will be a credit to that region but also a lesson on its wonderful resources.

It would be impossible in this limited space to deal with the

Thousand and One Attractions

Toronto Exhibition affords in the Industrial Department alone, and therefore we will pass on to the amusement features in which the Fair will be richer in wonder and greater in variety than ever.

THE AREA OF ENTERTAINMENT

An interesting and popular feature in connection with this year's Exposition will be the

Olio De Plaisance

which will embrace all that is new, unique and novel in the way of innocent divertisement. The Management and Board of Directors are determined to adhere strictly to the rule that has always predominated at "Canada's Great Industrial" in not tolerating fakes or doubtful shows of any sort, and with this in view have selected and engaged the very best of each kind obtainable to combine in forming an OLIO DE PLAISANCE. Amongst the shows already contracted for may be mentioned

Bostock's Famous Animal Arena

presenting a collection of highly trained Lions, Wolves, Bears, Panthers, Tigers and other ferocious and wild animals.

Akoun's Beautiful Orient and Cingalese Theatre

A reproduction of the streets and villages of the principal countries of the far East.

Stark's Troupe of Glass Workers

Blowing glass, silvering glass, making everything possible out of glass. Exhibiting the original lady glass-blowers constantly at work.

"Fairyland"

An entirely new departure in amusement enterprises, especially attractive to ladies and children, and to be presented at "Canada's Great Industrial Exposition" for the first time by its inventors, Messrs. Miller and Warren.

Sosman and Landis' Electric Theatre

Presenting "A Day in the Alps." Anything so completely realistic has never before been presented in mimic life. The most realistic electrical effects possible.

The foregoing are only a very few of the high class shows definitely contracted for at the time of this programme going to press. Others with whom negotiations are now pending include STREETS OF INDIA, STATUE TURNING TO LIFE, CORA BECKWITH'S WATER SHOW, BEAUTIFUL PAINTING OF "TRILBY," Capt. Sorcho's Deep Sea Divers Temple of Illusions, Milton Dowker's Alberta Cowboys, The Art Studios, Mexican Village, and many others.

An exclusive feature, and to be seen only at Canada's Great Industrial Exposition! Special engagement at enormous salary of

Hardy Downing

of San Francisco, in his thrilling feat of
Looping the Loop on a Bicycle

This is an act that requires daring and nerve. The track that holds him is not wider than a narrow fence rail and it swoops downward at an incline of 58 feet in 140. Outside of the famed "DIAVOLO," HARDY DOWNING is the only human being who has continuously successfully accomplished this perilous feat of

Looping the Loop on a Bicycle

TO BE SEEN ONLY AT THE BIG TORONTO EXPOSITION.

First and only appearance in Canada, and to be seen only at Toronto Exposition of 1902

Captain Woodward's Troupe of Performing Seals and Sea Lions

These amazing legless and armless mimics are the funniest creatures, performing tricks eclipsing the tabled Tritons. With only slippery flippers to supply the place of skilled hands and feet, they accomplish the most intelligent, strange and ludicrous tricks. They are the oddest of musicians, vocalists and comedians. As soldiers, ball players and grotesques, they sing songs of the sea, play upon musical instruments, drill, catch and pitch, and constitute the only sealskin band.

The engagement of Captain Woodward and his seals at the Great Toronto Exposition will mark their first appearance in America.

By special universal request of the many thousands who witnessed their marvellous performance in 1896, re-engagement of

Lockhart's Elephants

In a new, varied programme of tricks. LOCKHART'S ELEPHANTS stand on their heads, romp around like schoolboys, skip and frisk about like mastodonic kittens, play mischievous tricks upon each other, box and act a play like men and women, and many other astounding things.

THESE ELEPHANTS ACTUALLY PLAY A GAME OF TEN PINS AND RIDE BICYCLES.

Only Canadian engagement at Toronto Exposition, September 1st to 13th, 1902.

Music Hath Charms

And the Industrial's Directors with this fact in view have engaged the following high class military and other bands to appear during the Exhibition: - Royal Grenadiers; 48th Highlanders; Queen's Own Rifles; Public School Cadets; Governor-General's Body Guards; Victoria Boys' Home, Toronto; 13th Batt. Reg. Band, Hamilton; Oxford Rifles, Woodstock; 25th Batt., St. Thomas; 36th Reg. Band, Shelburne; 32nd Bruce Batt., Walkerton; Oddfellows' Band, Belleville; Dufferin Rifles, Brantford; Citizens' Band, Midland; 29th Reg. Band, Berlin; Citizens' Band of Oshawa; 19th Batt., St. Catharines; 57th Batt., Peterboro'; Nyack Band, Warsaw, N.Y.; 12th York, Aurora; 43rd Reg. Band, Seaforth; Hespeler Brass Band, Hespeler; 24th Regiment Band, Chatham; Toronto Exhibition Band; The Royal Italian Orchestra and many others.

First and only presentation in Canada on a scale far surpassing in magnificence and grandeur anything heretofore attempted in the out-of-door spectacular world: Bolossi Kiralfy's masterpiece, styled

The Orient

Illustrative of the chivalry, pomp and panoply of the 15th Century, introducing nearly one thousand performers, presented under the personal direction and supervision of the famous impressario, Mr. Bolossi Kiralfy, and exactly as produced by him at "Olympia," London, England. A superb scenic representation, depicting the splendors of Oriental history. ENTIRELY UNLIKE ANYTHING WITNESSED BEFORE IN CANADA.

"THE ORIENT"—A mammoth terpsichorean and lyric spectacle, teeming with historic incidents.

Every Evening during the entire period of Canada's Greatest Gala Gathering and People's Annual Holiday, will be given a

Monster Display of Fireworks

by Messrs. James Pain & Sons, of London, England, who upon this particular occasion will endeavor to outdo anything heretofore attempted in pyrotechnics, introducing all the latest up-to-date prismatic novelties and effects.

The special features and attractions for 1902 to be presented each afternoon and evening

In Front of the Grand Stand

will embrace the very pick of the world's most recent wonders and novelty creations, and include:

Madam Marian Liljens

the celebrated Swedish High Diver and Aquatic Artist. Her first appearance in Canada.

The Four Rianos

Australian Animal Imitators and Grotesque Comiques. First appearance in Canada.

Willie Hale and Francis

the world's greatest Club Jugglers, Globe Experts, and the latest success, "The Animated Hoops."

International Cycle Whirl

HARLEY DAVIDSON
Champion of Canada

ROBT. FISCHER,
Australian Champion

SAM YOUNG
Champion Southern States

Showing Pursuit Race, Single Dip, Triple Dip, Under Dip, Trick Riding, Complete Disrobing without use of handlebars.

Nelson's Comiques

in their Grotesque Acrobatic and Bar Comedy Act, entitled "Frolics at the Zoo."

Pantzer Trio

Contortionistic Pantomimists. Canadian debut.

Lily Bletsoe (of Toronto)

Lady Cornetist.

The above is only a partial list of the specialties already engaged (several other contracts pending at time of this programme going to press), but will serve to show the splendid aggregation that will be presented.

Thursday, Sept. 11th

For OUR U. S. COUSINS and AMERICAN VISITORS.—Every department of the Exhibition will be open from 8 a.m. till 10 o'clock p.m. All the resources of Canada to be seen at their best—parades of Live Stock and Cattle in the rings, road drivers' parade (trotters), road drivers' parade (pacers), open handicap race, 3-year-old colt trot, judging of high steppers, four-in-hand, special prize for high jumping contests, butter-making contests, continuation of judging not completed on the previous days. All the special attractions will be given during the afternoon about the grounds and in front of the Grand Stand, including

LOOPING THE LOOP ON A BICYCLE

as performed by Hardy Downing of San Jose, California, LOCKHART'S WONDERFUL ELEPHANTS AND CAPTAIN WOODWARD'S MARVELLOUS SEALS AND SEA LIONS, the famous International Cycle Whirl, the Lady High Diver, Nelson's Comiques and 4 Rianos, and big list of features. Everybody will surely take in all the fun, folly, frolic and frivolity of

THE OLIO DE PLAISANCE

With its grand, gay, giddy, glorious, gala galaxy of innocent amusement gathered from all parts of the earth. Music will be given by the Nyack Band of Warsaw, N.Y., Royal Grenadiers Band, Exposition Band and Royal Imperial Italian Orchestra.

Evening.—Concerts de Luxe by all the musical organizations engaged for the day and evening. Grand entertainment in front of the Grand Stand with an extra special display of Fireworks, including handsome set pieces and all the latest devices known to the pyrotechnist's art. Bolossi Kiralfy's entrancing lyric terpsichorean spectacle "The Orient," in which nearly one thousand performers take part. Brilliant electrical illumination of all the Buildings and Grounds, which will be open till 10 o'clock.

Friday, Sept. 12th

REVIEW DAY.—Undoubtedly the best day to visit Canada's Greatest Industrial Exposition and Agricultural Fair. Every exhibit and every feature at its best. Positively everything remains complete on the Grounds and in its place till night, the Grounds and Buildings being open in their entirety till 10 o'clock p.m. During the afternoon

**ALL THE PRIZE HORSES AND CATTLE
WILL BE PARADED**

on the track in front of the Grand Stand at 2 o'clock, affording one of the best opportunities to view this fine exhibit and grandest sight imaginable.

Experimental Farm Exhibits, Working Dairy, British Columbia Display, and all Machinery and Implements in full operation, and all other special attractions will be on view the entire day.

NO CURTAILMENT WHATSOEVER IN ANYTHING

The grand specialty programme of exclusive American and European features on the immense stages in front of the Grand Stand, Breeders' Stake Race, Half-bred Race, Completion of Judging in High Jumping Contests, or any other events left unfinished. The Bands of the 12th York Rangers (Aurora), Governor-General's Body Guards, Nyack Band of Warsaw, N.Y., Industrial Exhibition's Own Band and the Royal Italian Orchestra will discourse music throughout the entire day.

Evening.—Brilliant Prismatic and Electrical Illumination of all the Buildings and Grounds, which will be open till 10 o'clock. Grand Promenade Concerts by the several bands engaged on this day. Final performance in front of the Grand Stand, including

MADAM LILJENS' THRILLING FIRE DIVE

and all the other great features; Bolossi Kiralfy's Stupendous spectacle, "The Orient" and last Grand Display of Fireworks.

Saturday, Sept. 13th

EXHIBITORS' DAY ONLY.—The public not admitted on this day. The Exhibition will be officially closed at 7 a.m., after which exhibitors may remove their exhibits. The Treasurer will be ready to pay prizes at 9 a.m., and all who can make it convenient to do so are requested to call for their awards before leaving the Grounds.

PLEASE NOTE.—Many other Special Features, Unique Novelties and Up-to-Date Ideas, Inventions, etc., will be added to the above programme between the time of its issue and the opening of the Exposition.
